## **Tree Preferences**

Below are listed the types of trees available for 2005. These species were selected as the best available with mature height, shape, and hardiness appropriate for a street tree canopy. More information is available on the "Street Tree Choices" sheet accompanying this application or on our web site, [www.treesinc.org](http://www.treesinc.org). Mark your preferences below in order, beginning with 1 for your first choice, 2 for your second choice, and 3 for your third choice. We will make every effort to fill your request and will notify you if we are unable to accommodate you. Early applications will receive preference on selection as long as the site is appropriate.

\_\_\_\_\_ Gingko (male)      \_\_\_\_\_ Red Oak      \_\_\_\_\_ Linden Greenspire      \_\_\_\_\_ Autumn Blaze Maple

\_\_\_\_\_ I would be happy with any of these trees.      **(Please fill in both sides of this application.)**

Tree Row Size Considerations

Do you have a tree row?-----yes no

- If you do not have a tree row,  
could the tree be planted within the right-of-way 3-7 feet into your yard?-----yes no

If you do have a tree row, is your tree row at least 5 feet wide?-----yes no

- If your tree row is not at least 5 feet wide,  
could the tree be planted within the right-of-way 3-7 feet into your yard?-----yes no

*This 3-7 feet is measured from the edge of the street or the edge of the sidewalk closest to your yard.*

*TREES' trees cannot be planted on private property; they must be planted in the public right-of-way like a tree row or similar space.*

Overhead Wire Concerns

Are there wires overhead of the tree planting area?-----yes no

- Are the wires power lines?-----yes no not sure
- Are the wires street light lines only?-----yes no not sure

*TREES' trees cannot be planted under overhead wires unless the wires are street light lines only.*

Safe Distances Considerations

Is there adequate space to plant the tree so that it is

- at least 30' from an intersection ~ measured from curblines of intersecting streets? yes no
- at least 20' from existing large shade trees?-----yes no
- at least 10' from an alley, utility pole, street sign, fire hydrant, or public driveway? yes no
- at least 5' from a private driveway or a sidewalk located within the tree row?---yes no
- at least 8' from a utility line such as gas, water, communication?-----yes no not sure
- not obstructing a stop sign?-----yes no

Preferred Tree Site

- What type of site? *Owner occupied residence* \_\_\_\_\_ *Rental Home*\_\_\_\_\_ *Business*\_\_\_\_\_

- Has TREES planted a tree at this address previously? -----yes no

- Do you have a particular place you would like the tree to be planted? -----yes no

*If you have a particular spot, would you please mark that location with a tomato stake, broom handle, flag or something obvious to us? Please leave marker in place until tree site is confirmed.*

- **Please mark on this drawing with an X for each spot where you would like a tree.**

Please add to the drawing landmarks such as sidewalk, driveway, curb, water meter covers and existing trees.
